

# OPCT® Factory is tailored to YOU!

## A boost for your business

Giving **outside consultations**? With OPCT® Factory, you can design custom foot orthotic as if you were at your practice.  
Under time pressure? **Save time** with OPCT® Factory, increasing patient satisfaction and avoiding extra time in the workshop at the end of the day.

## Patient satisfaction and reproducibility of custom foot orthotic

Behind schedule? With OPCT® Factory, consultations take less time, enabling you to **focus on the clinical examination and optimise your appointment schedule**.  
Does your patient want a new pair of custom foot orthotic identical to the previous one? With OPCT® Factory, **all the previous data is saved, guaranteeing easy reproducibility** for optimum patient service.

## Patient database to hand

OPCT® Factory includes the PODIATECH app which stores all your patient data (contact details, case history, clinical observations, etc.), with **no need for any other software!**

## No stock required

With OPCT® Factory, all you need is a scanner. There's no need to order materials at the last minute or to keep your practice free from lots of stock.

## Healthier working conditions

**No more glue, no more dust, no more repetitive strain injuries.** OPCT® Factory makes your custom foot orthotic for you, so you can spend time on other activities.

## Increase your profitability

Use the time saved to **concentrate on your relationships with your healthcare partners**, such as prescribers, or to expand your clientele.  
OPCT® Factory requires **no initial investment** – the perfect solution for anyone looking to reduce their set-up costs or provide external consultations.

## The advantages of OPCT®

- A Podiatech innovation developed over more than 20 years ;
- Tested and approved by athletes and thousands of foot-health professionals ;
- A unique product ;
- A combination of materials that creates a 3-dimensional synergy unequalled by other solutions ;
- Suitable for all types of patient, all activities and all fitting volumes ;
- Very wide range (more than 40 models priced at every level).

Podiatech, the creators of the OPCT®, have gone one step further, offering a new solution for the digital era : OPCT® Factory.

OPCT® Factory is a service offering **digital design and manufacture** of your **thermoformed custom foot orthotic**.

## 1-Scan

Create 3D scans of your patients' feet.

Use the Structure Sensor and an iPad to scan **the vacuum bag imprints**

or use the Structure Sensor and an iPad to scan your patient's **feet (off load)**

or use the Structure Sensor and an iPad to scan the **imprint box prints**

or use a flatbed **scanner**.

## 2-PODIATECH App

Use the app to digitally design and personalise your OPCT®.

- Enter your patient information (patient data and clinical examination data).

- Choose the OPCT® model you want from our full range.

- Indicate which correction elements you want to add to your OPCT®. **(Advanced and Elite levels only).**

- Position and draw the corrective elements wherever you like. **(Elite level).**

- **Simple, intuitive online software.**
  - Available for iPad and PC.
  - **Free** to download (subject to conditions).
- Compatible with most existing scanning technology.
- **Several personalisation levels** available.

## 3-SIDAS FACTORY

We will make your OPCT® to your specifications at our SIDAS Factory.

- Machining a positive cast\* from a scan validated in the Podiatech app.

- Thermoforming the selected OPCT® on the positive cast\*.

- Adding the required correction elements.

Your OPCT®s are made by a **foot-health professional**.

\*Our positive casts are machined from a recyclable material.

## 4-Delivery

We send your OPCT®s directly to your clinic.

- Option to order the positive cast\* used in the thermoforming process.

You receive your custom foot orthotic moulded, made to measure and with the required corrective elements.

You can **modify and adapt** the OPCT® received.
